Mechanical • Electrical • Plumbing

Product Profile

MEP Jobs – Sourcing Services

MEP Jobs provides two sourcing services for employers in the mechanical, electrical and plumbing industries: **Source&Screen** and **ResumeCapture**.

Source&Screen: Source&Screen is a turnkey, internet-based sourcing solution that helps you find the “best fit” candidates for your most difficult-to-fill jobs. We work with you as a trusted advisor to help locate the most qualified candidates on the web that fit your needs and requirements. Our sourcing team has worked in the MEP industry for years. We know how to find the most highly qualified candidates. Then we pre-screen and phone interview them. Only candidates that are qualified and interested AND are willing to consider relocation if an agreeable offer is presented will make the cut.

ResumeCapture: Employers use ResumeCapture to streamline their sourcing process. ResumeCapture provides resumes that match the employer’s requirements. Each resume is scored based on the client’s criteria. ResumeCapture allows employers to eliminate one of the most time-consuming parts of hiring by locating, organizing and scoring resumes that meet the desired requirements.

About MEP Jobs:

MEP Jobs is the leading online job board and resume bank for professionals in the mechanical, electrical and plumbing industries. MEP Jobs focuses exclusively on the specialty trade contractor segment, including contractors, manufacturers, wholesalers, facility managers, service organizations and executive search firms. MEP Jobs was founded in 1996, and is a service of Industry People Group.
